

Student Perception of Instruction (SPI) Faculty Questions

1. I received an e-mail about the SPIs, why aren't my students seeing them?

Faculty is sent an advanced notification for when the SPIs will be open. Please review the e-mail to determine the dates when the SPIs should become available.

2. Where do I find the SPI counts in myUCF?

Select **Faculty/Advisor Self Service, Instructors** and then select **SPI Counts**.

3. When do I get to see the SPIs?

As the semester ends the online SPIs close, the data is processed and provided to each department on CD. Please check with your department for further information.

4. Are my students blocked from their academic information until they have completed their SPIs?

5. No, the SPIs do not prevent students from getting to their academic information. They can reach that information using the menu links on the left hand side of the myUCF page. Only the Student Center page is blocked by the SPI page.

Ex: A student who needs a degree audit before meeting with their academic counselor would select Student Self Service>Student Records>Academic History>Degree Audit to get to the Degree Audit page.
