Headsets & Accessories

Focus B825-M

Offering seamless connectivity to your PC or smartphone, and integration with leading UC applications, **the B825-M** is ready to work how you do. With up to 98 feet of wireless range, enjoy mobility while calls and music stay crystal clear. The groundbreaking active and passive noise canceling and immersive stereo of the B825-M headset enable you to concentrate on your calls or your music without distractions. With three precision-tuned mics and sophisticated muting options, your callers can concentrate on you too.

Voyager 8200 UC

The **Voyager 8200 UC** with its contemporary, boomless design and active noise canceling, Voyager 8200 UC blocks out background noise so you can concentrate on your work or your call in comfort and style. Soft ear cushions, 24 hours of listening time and a 3.5 mm audio cable allow you to play music whether you're in the office, on a flight or on the go. Roam with ease at a range of up to 30 m/98 ft with a Class 1 Bluetooth® device.

UCF IT Telecommunications

Savi 8220

The **Savi 8220** is Wireless DECT-based headset system that delivers hi-fi stereo sound, whether you're calling customers or colleagues or listening to music. And active noise canceling (ANC) blocks out background noise so you can always stay focused on what's important. For the most sensitive environments, you can turn up noise canceling with the close conversation limiting feature for additional privacy. For Multi-Device connectivity you can switch seamlessly between mobile and desk phone. Enjoy wireless freedom up to 590 ft.

Voyager 5200 UC

Be ready to take the call, wherever you're connected. The **Voyager 5200 UC** Bluetooth headset offers our most advanced, adaptive noise cancelling with WindSmart technology to reduce disruptive noise. It's ready to work.

UCF IT Telecommunications

Voyager 4210 UC Series

The **Voyager 4210** is a mono headset that makes it easy to switch between PC/Mac and mobile devices, so it's easy to stay connected. A dedicated button gives you quick access to mute, while voice prompts alert you if you're on mute when you start talking. Enhanced voice alerts tell you connection status, remaining talk time, mute status and more. Your colleagues will know when you're talking to someone because of the red call indicator light. And, you'll still hear incoming calls if you step away from your desk. Experience crystal-clear audio, whether you're listening to multimedia or collaborating with colleagues, with Voyager 4200 UC Series. Enjoy wireless freedom while you roam the office. Vibrant sound is with you every step within the headset's 98 ft range.

Voyager 4220 UC Series

The **Voyager 4220** is a stereo headset that meets the needs of office professionals as well as IT. With the choice of stereo or mono, crystal-clear audio, wireless freedom, and the ability to switch seamlessly between mobile phone and PC, Voyager 4200 UC Series helps you be more productive and enriches your voice communications experience. Experience crystal-clear audio, whether you're listening to multimedia or collaborating with colleagues, with Voyager 4200 UC Series. Enjoy wireless freedom while you roam the office. Vibrant sound is with you every step within the headset's 98 ft range.

Blackwire 5220

When you need to wear a headset all day, the **Blackwire 5200 Series** has you covered in the utmost of comfort. Ergonomically designed, it's comfortable enough to wear all day, on your longest calls. To make it easier for you to work anywhere in the office, it also gives you the freedom to plug into the compatible device of your choice: All models are available with 3.5 mm connectivity and you can choose USB or USB-C. Today's workplace can be noisy and filled with distractions and you'll be able to hear and be heard more clearly, enjoy conversation privacy and be more productive. That's because soft, conforming ear cushions provide passive noise canceling, while a precisely tuned microphone masks nearby conversations

Calisto 7200 Speakerphone

Designed for 4- to 6-person conference rooms, **Calisto 7200** makes sure everyone on the call is heard with crystal clarity. 360° room coverage with echo cancellation ensures disruption-free collaboration. Four directional microphones that provide 360° coverage and filter out unwanted noise. With USB and Bluetooth connectivity and touch-sensitive controls

UCF IT Telecommunications

Voyager 6200 UC Series

Voyager 6200 UC is a Bluetooth® neckband headset with earbuds that has the versatility to go beyond the office. Transitioning to your next conversation is easy: Connect with colleagues working remotely, listen to music to focus distraction-free or drop an earbud to tune in to the conversation around you. You can count on Voyager 6200 UC for outstanding audio every time.

Embrava Blynlight

The **Blynlight** is designed to let your colleagues know when you're on a call, busy with a deadline or available to chat.
