Conference Phones

Polycom CX5500

The **Polycom CX5500** unified conference station brings the powerful collaboration capabilities of voice, video and content together through a unique 360-degree panoramic view of the entire room. A second HD video view of the active speaker is also sent at 1080p video resolution using advanced technology that automatically focuses on the current speaker and tracks the flow of conversation to enable richer, more interactive communication. No more reaching for a video control device. It's a "hands-free" experience that allows you forget about the technology and simply focus on your meeting.

Polycom Trio 8800

The **Polycom Trio 8800** is the conference phone reimagined for larger conference rooms. Marrying our world-class audio conferencing experience, with business-class video and content. With a 20-foot pickup range and advanced audio technology such as enhanced Polycom® HD Voice™ and the patented Polycom® NoiseBlock™, conversation flows naturally and you hear every word clearly. A 5-inch color touch display and intuitive, familiar Skype for Business interface minimizes training. And with Microsoft Exchange integration, scheduled meetings can get started with one touch of the join button resulting in fewer mistakes and quick starts for every meeting.

UCF IT Telecommunications

Cisco Unified IP Conference Phone 8831

The **Cisco Unified IP Conference Phone 8831** enhances people-centric communications, combining superior high-definition (HD) audio performance and 360-degree coverage for all sizes of conference rooms and executive offices. It provides an audiophile sound experience with a full-duplex two-way wideband (G.722) audio hands-free speaker.

The IP Conference Phone 8831 is a simple, scalable solution that meets the challenges of the most diverse rooms. It provides flexible deployment options and expansion by using extension microphones that can be wired or wireless (Digital Equipment Cordless Telephone (DECT)) with a daisy-chain configuration of two units.

Crestron Mercury

The **Crestron Mercury** instantly transforms a personal phone call into a whole-room audio conference with clear, echo-free audio and the ability to start and stop a call, adjust volume, mute, and display caller ID on the touch screen. Bluetooth-enabled phones appear automatically on the touch screen, enabling instant connectivity with the press of a button.

Crestron Mercury integrates directly with Microsoft Exchange allowing seamless room scheduling and automation for any number of Crestron Mercury-equipped rooms. Crestron Mercury welcomes attendees to the room with a customizable on-screen confirmation of the scheduled meeting, and provides gentle notifications as the meeting progresses to show the time left and what's scheduled next for the room.
